

FTI Consulting Opportunities

FTI Segments - Overview

Corporate Finance

Corporate Finance is focused on delivering restructuring and business transformation solutions.

Forensic & Litigation Consulting

FLC supports clients facing high stakes litigation, arbitration and compliance investigations, and regulatory scrutiny.

Health Solutions

Health Solutions delivers expertise through teams who understand the complex and dynamic health care industry, and the regulatory environment in which our clients operate.

Strategic Communications

Strat Comms designs and executes communications strategies for clients managing financial, regulatory and reputational challenges.

Technology

Tech solves data related business challenges, with expertise in legal and regulatory matters.

Economic Consulting

Economics provides law firms, companies, government entities and other interested parties with analyses of complex economic issues for use in international arbitration, legal and regulatory proceedings, and strategic decision making and public policy debates around the world.
